

Sackville News

21st October 2016

Dear Parents,

It is hard to believe that we have already arrived at the half term break! We have certainly had a very busy time since the start of the academic year and I would like, once again, to thank you for all the fine support you are giving to our students.

Many of you may be aware that the initial release of the national **school performance tables** took place last Thursday. This year, the government has introduced the new 'Progress 8' measure for schools which gives an overall score for progress from the end of primary school to GCSE. We were delighted to find out that Sackville was **5th in West Sussex** and **top in Mid Sussex** (East Grinstead, Cuckfield, Haywards Heath, Burgess Hill and Hassocks) including faith schools. We are also top in the wider area of Mid Sussex plus Oxted, Chailey & Uckfield. Well done everybody!

Success can be evident in many different ways and it has been wonderful to celebrate the achievements of our **U15 (year 10) netball team who won the County Netball League last week!** They had been travelling regularly to St Paul's School in Burgess Hill and competed with 10 teams for this title. The girls were unbeaten throughout and were rightfully ecstatic! They also won their versatility tournament two weeks ago so they really are flying at the moment and all of this is down to their hard work. I was delighted to share juice and cookies with them in my office one breaktime this week and let them know how proud we all feel. Next on the radar is the knockout cup so fingers crossed!

Last Friday we were

pleased to hold a very special event for all of our year 7s. We laid on an **activities evening** that was very well-attended and an important part of our transition process, reinforcing friendships built and further strengthening staff-student relationships. Without a doubt a good time was had by all! We finished with a glo-stick hunt in the dark which was much enjoyed. I would like to thank the year 7 leaders Mr Morris and Mrs Knock together with the tutors and other colleagues who gave up their time so generously. There are more photos later in the newsletter.

This week we have had our very important **year 11 parents' evening** with subject teachers. It was a pleasure to talk with so many year 11 parents on Tuesday and there is without a doubt a clear focus for the year ahead. The fantastic **gym and dance evening** was packed with endless skills, talent and enthusiasm and photos later in Sackville News reflect on just how good this event really was!

On 13th October I was fortunate enough to accompany a large party of year 8 students on a day trip to the **battlefields of the Somme**, ably organised by Miss Vance. It was a moving day and a particularly poignant moment was our visit to the Thiepval memorial in a year that marks the centenary of the Battle of the Somme. Flowers were laid on behalf of the Sackville community.

Parents may have read in the local press about a very special photo which was taken in front of the **Canadian war memorial at Vimy**. Ben Bartlett's great grandfather, **Sgt Cecil Speller**, was present at the dedication of the Vimy Memorial in 1936 and appears in this black and white photo in the front row, fourth from the end of the line being inspected by King Edward VIII.

Above is a photo taken last week of Ben standing in a similar position by the Vimy Memorial. I am very grateful to Miss Garrison who organised for the coach to be diverted for this photo to be taken.

Finally, it just remains for me to wish everyone a good half term break and also warmly welcome our year 11 students and parents to our **6th form open evening** on the Thursday after half term (**3rd November**). Our 6th form has so much to offer and I am sure it will be a very informative evening.

Best wishes,

Julian Grant
Headteacher

Sackville School
Headteacher: Mr Julian Grant
Sixth Form September 2017
Open Evening
Thursday November 3rd 2016, 5.30 – 7.30pm

Come and study in our highly successful sixth form

- 80% of A level grades at A* - C in 2016; progress well above national averages for the past 8 years
- 24 students achieved A* or A at A2 maths in 2016
- Outstanding pastoral care and guidance
- Focussed advice on future employment and further study, with work experience programme in year 12
- Established record of success with all universities based on extensive UCAS support

Lewes Road, East Grinstead RH19 3TY
Tel: 01342 410140

"The school's dedication, enthusiasm and encouragement meant our children were able to achieve the best possible results."

Sackville News teaching and learning update October 2016

Mr Feist writes:-

After the successes of last year, our teaching staff are continuing to work on improving their practice in the classroom with the over-riding aim of providing lessons that meet the individual needs of all of our students.

Our **termly foci of work** this year are the use of Personal Learning Checklists (PLCs) for assessment this term, numeracy across the curriculum in the spring term 2017 and differentiation for SEND students next summer.

So far this term, Mrs Stuart has led our work on using **PLCs** for students to self-assess their progress in each subject. We continue to expand the use of electronic versions of these in Key Stage 5 and in our INSET day last month English, Maths, Science and Drama staff shared how they use PLCs with their Key Stage 4 and Key Stage 3 classes in lessons to check progress and plan differentiated tasks.

Miss Pearson has taken on the **Literacy** Co-ordinator's role and her work is to introduce debating opportunities in the school, support subjects in teaching extended writing skills (which are an increasingly important element of the new GCSEs) and run more reading and writing competitions with the Learning Resource Centre.

In **numeracy** developments, Mr Stromfield and the Maths team are working on consistent approaches to teaching mathematical concepts and processes and finalising our new Numeracy Policy.

Mr Attrill is responsible for **e-learning** and is looking at creating Google 'champions' in each subject area to expand the use of Google Apps in our lessons and he is offering individual training to departments to ensure we also consider how technology can be used to improve our teaching.

Mr Treen is now beginning to get an overview of each subjects' **schemes of work** so we can share best practice in planning between Curriculum Team Leaders.

Earlier this month we ran an '**Open Door**' Week where staff visit each other's lessons to see colleagues they wouldn't normally work with and subjects being taught they rarely experience. It is a great chance to share our best ideas and strategies.

We are currently reviewing our provision for our **gifted and more able** students across all subjects, led by Mr Hayden and Mrs Beasley. Lesson observations and work scrutiny will give us a clear picture of what we are doing well and where can improve.

As I write these summaries, I am always surprised by how much we do in a relatively short amount of time! These developments have all happened in the first five weeks of this year and it is a testament to our teachers that they launch into each new term with bags of energy and enthusiasm for the best job in the world.

Sackville E-Safety Advice: Parental Controls

Mr Lea writes:-

What do parental controls do?

These controls are designed to help parents and carers manage their child's online activities. There are various types, some of which are free but others which can be bought. However, nothing is totally foolproof so they don't replace the need for adults to support and advise children using the internet.

For detailed guidance on all the different types of control, you can use the online tool on the website below:

<http://www.internetmatters.org/parental-controls/interactive-guide/>

This gives you the chance to set up a personalised list of the controls used in your home on all your different devices. There is also advice on how to use all the various controls, with videos and step-by-step instructions.

What can parental controls be used for?

Controls can either be for a device like a games console, or for a network such as your home broadband.

The way to access device controls can vary according to the manufacturer. They can offer varying types of protection, from filtering out adult content from search results to preventing your child from buying things when playing games. You can generally find instructions on how to set up these controls on the manufacturer's website or use the Internet Matters app for help. These settings will apply whether the device is being used in your home or outside – but it's easy for them to be switched off, so talk to your child about trust and responsibility, making sure they understand the importance of why you have put the settings in place.

Most games consoles come with settings, which can be put in place for either the device itself or the games platform. It's easy to forget that games consoles allow players to connect to the internet and talk to people all over the world so setting controls on devices and the platform itself (such as X Box) is important.

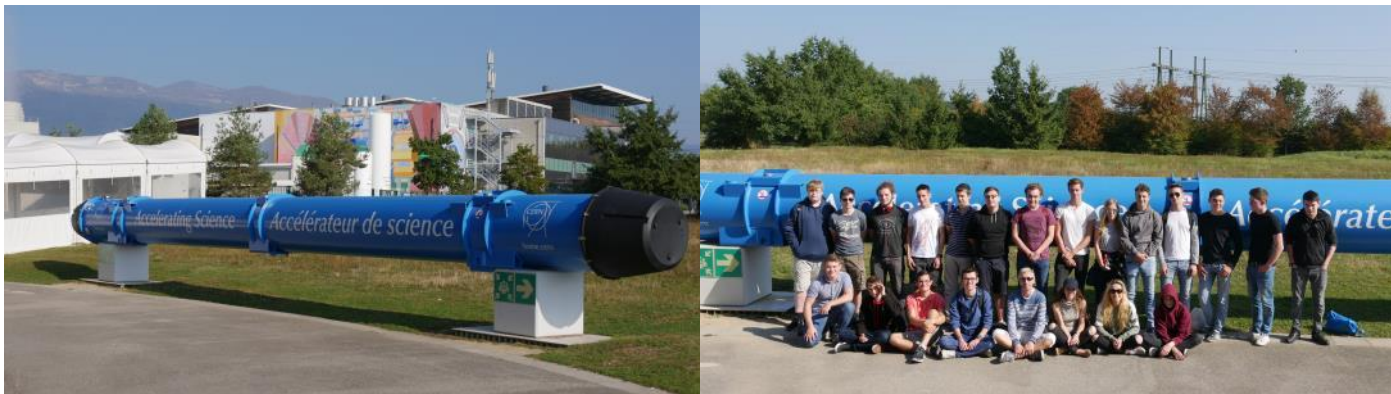

Broadband and network filters generally come free with your service. These can be used to prevent material coming into your home. For example, you could restrict anything with a horror or sexual content being accessible via your home broadband. Instructions for accessing these filters can be found on the service providers' websites – look at the bottom of the page to find the "help" or "security" page.

Sixth form physics trip to Geneva

Mr Bush writes:-

Our ever popular A level physics trip to Geneva to visit the Large Hadron collider began with three bleary eyed teachers and 21 students meeting at 6am in Gatwick. As a reward for our early start, we were greeted with clear skies in Switzerland which lasted for three days. In the afternoon we were shown around the United Nations buildings and were able to observe a session discussion on human rights in the Middle East, as well as visiting other meeting areas in the beautiful old art-deco building.

Students spent the whole day at CERN on Saturday, exploring the impressive interactive multimedia experience in the Globe called “Universe of Particles”, and Microcosm, which houses many exhibits from both past and present experiments. After a picnic in the sun, a CERN physicist gave a talk about fundamental particles, which was followed by a tour of the cryogenic testing facility and the ATLAS experiment. It was impressive to think that, on the day we visited, protons were being accelerated under our feet to 99.999999% the speed of light – wow! After an evening meal we ended our day with a walk by the lakeside to see the illuminated Jet d’Eau.

Before flying home on Sunday, we had plenty of time to return to the lakeside and visit the History of Science museum, crammed with fascinating equipment. Even the toilet houses a display case which contains 19th Century colonic irrigation apparatus – a nice touch!

It was great to see students not only deepen their understanding of fundamental physics, but also be inspired by how audacious humankind can be. Thanks to Mrs Rawsthorne and Mrs Sherriff for their company, and to Mrs Wogan, Mrs Baldwin and Mr Wilcox for their hard work planning the trip.

Mr Roberts goes for the hard cell

Meanwhile, some of those who will visit CERN in 2022 have been put through their scientific paces by Mr Roberts, with that old favourite piece of year 7 homework, ‘make a model cell’. This year 7 class has surpassed itself, as you can see.

Thank you to Noah Englishby-Allen, Rowan Burrell, Charlie Snashfold, Henry Johnson, Emilia Stefanescu, Emily Graziano, Jack Parker, Bella Dunsdon and Maud Kendrick (hiding) for these excellent pieces of homework!

Gym and Dance in pictures

Eve makes it to the English Youth Ballet

Congratulations to Eve Lewis in year 8, who against stiff competition has secured a place in the English Youth Ballet's winter season and performance of Swan Lake in November. Something tells me this half term won't be quite so relaxing for Eve as it might otherwise have been.

A great opportunity to follow your dreams Eve – well done! You can see how pleased she is from this picture taken the day she heard she had been selected.

Year 8 humanities trips

Since the last edition of Sackville News, year 8 students have enjoyed a trip to the seaside with their geography teachers to study erosion and coastal defences, and the history trip to the World War 1 battlefields. All good preparation for choosing their humanities option in the New Year! The photos here give some idea of what the students did on each trip.

Year 8 orienteering reward trip

Hydan Lewin and Summer Warburton from year 8 write:-

The orienteering reward trip at East Court was great fun and exciting and the clues were not too hard to find. Altogether it was a great activity.

When we first got to East Court it was lunch time so we all sat down on the field with our friends and had our lunch. Then while we were all sitting down the teachers told us the rules and how we do the activity. The teachers told us not to go in the woods as they could not see us and there were no clues in the woods. We also had to respect that there were other members of the public at East Court, so we had to be calm.

After lunch, we all got into our teams and we had our pencil, score sheet and map. We were ready to go. We went around answering questions about the 2016 Olympics and we had an hour to get as many answers as we could get. Whoever came first won a prize – this went to Dan Beard, Archie Mabey and Jack Smith who completed the course in 38 minutes! We all had a great time with our friends.

News from the Learning Resource Centre (LRC)

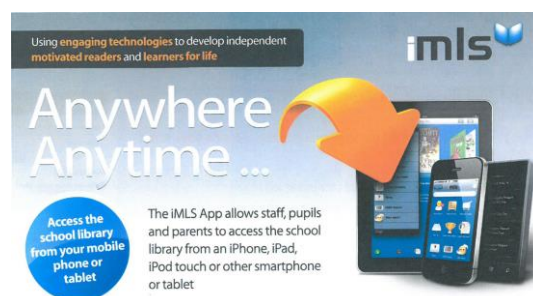

Mrs Rose writes:-

We have had a busy time since the start of term. We have been celebrating the centenary of one of our most famous children's authors, Roald Dahl, welcoming the new year 7s to the LRC showing them how they can use the resources we have to offer and encouraging them to enter the Roald Dahl competition which was only open to year 7s. The students had to match the famous Dahl books to the pictures (made up from words) which were put around the LRC. There were over 30 correct entries and the first 3 picked out were Miah Blackburn, Isabel Cooper and Lucie Coxon. Congratulations to them. The next competition will be in December - can you guess the theme! This will be open to all students and more details will follow in the next Sackville News. The LRC also has a library monitor training program for any student who would like to help out at break or lunchtime. If this is something that may interest you then call into the LRC to find out more information. We look forward to seeing you.

Just follow these simple steps:

1. Download "iMLS" for free from the app store on your smart device.
2. User name is your school computer log in.
3. Password is your date of birth (DDMMYYYY).
4. Select your Library using the postcode search (RH19 3TY) and log in.

The students in years 7 to 10 have also been testing under the Accelerated Reader scheme which confirms the students' reading age and level of books they should read. The results will be given to students and this should be completed by the end of October. We have a great choice of books at every level so no excuses for not finding a great read at the correct level. With this in mind, the "eclipse" library resource search has been given a facelift and looks a little different. The facility to log in and search for a book is still the same - it just has a new look. If any help is needed to navigate the updated version then Mrs Wogan and I are always on hand to help. Don't forget there is also the "iMLS app" you can download to your phone/tablet which also allows access to the Sackville LRC resources so you can choose your next book from the comfort of your own home.

The LRC is always happy to receive book reviews from students and I hope you enjoy reading a "snap shot" of the two chosen for this edition as much as we do.

The Diamond Girls – Author: Jacqueline Wilson

The story is about a young girl, Dixie, and her family who move to a new estate because Dixie's mum is having a baby. The house is awful then Dixie's mum gets rushed to hospital to have the baby! So much happens and there is a big twist in the story. I really enjoyed reading it because it was exciting.

Review by **Lauren Bailey** Year 8

Because of Winn-Dixie – Author: Kate DiCamillo

10 year old Opal has just move to a small town in Florida with her Father, a preacher. While in the Winn-Dixie supermarket, Opal finds a scruffy dog wreaking havoc. She takes it home and names it after the supermarket. I loved this book because of the great bond between all the characters and how much the dog changes Opal's life. I would love to read more books by Kate DiCamillo because she opens my imagination and makes me feel like I'm in the book.

Review by **Honey Hedges** Year 8

Keep the reviews coming in and remember there is a treat for every review printed!

Students from Sackville School and Ashurst Wood Primary School try out Street Snooker in Ashurst Wood

Mrs Leet, Clerk to the Parish Council writes:-

12 of the Sackville year 10 Sports Leaders went along to John Pears Recreation Ground on Tuesday 18th October to try out and find out more about the newly installed Street Snooker Games Wall and is the first of its kind in Sussex!

Ashurst Wood Village Council organised an event for local school children to come and learn about Street Snooker from the inventor and company director of Play Innovation, Marco Boi. Street Snooker is an innovative, interactive activity games wall which combines sport and coordination skills with mental arithmetic and strategic thinking. The Sports Leaders took on the 60 second throwing challenge

with scores ranging from 7 to 24. The girls then challenged the boys to a group game with boys winning.

Street Snooker has been provided by Ashurst Wood Village Council with grants from the Big Lottery, West Sussex County Council and Mid Sussex District Council. It is free for anyone, any age, to just go along and have a go.

HOW TO PLAY

The 60 second challenge: Using any size and shaped ball and a timing device (eg stopwatch on mobile phone)

Step 1: Start on red round spot and throw or kick your ball at the

red triangle. Repeat until you hit the target.

Step 2: Once you have hit the triangle, sprint over to the scoreboard and spin the wheel. It must go round at least once! – What symbol has it landed on?

Step 3: Sprint to the selected ground spot and now aim for one of the round coloured targets. Keep throwing or shooting until you hit a target.

Step 4: Add your points up and start back at step one again. Keep adding your points to see how many you can score in 60 seconds

Soccer players: If you are a sharp shooter wanting to improve your penalty or free kicks, you can play using your own ball.

Netball/basketball players: You might want to test your precision throwing skills for netball, basketball or rugby whilst burning off some calories with the 'Minute Challenge'.

Tennis players: can use it as a rebound wall to practise aiming and timing.

Year 13 travel and tourism students put on a disco for Estcots

Whilst the year 8 students were returning from the history trip to the Somme, our year 13 travel students organised a disco in Estcots School. The Estcots children fully entered into the spirit of the Halloween themed event.

The Aspire Programme

This autumn we have launched a new programme to help some students in year 11 achieve their goals over the coming months. Led by Mr Street and Mr Endersby, the aim is for a selected group of students to improve their chances of getting the grades they deserve in the summer. Launched last week (with pizza) Thursday evening sessions have followed on goal setting, and on how to take the small steps to achieve those goals. For the second session, students were led by a speaker from 'Student Elevate', a company we have used before to help students with study habits.

The students are all working closely with their 'Aspire mentors' who are sharing the students' weekly targets with all staff in the school.

Cross Country

Sackville came second in East Grinstead Schools' Competition at East Court

Inclusion Games

Sackville came second at County Inclusion

Sports pictures

These pictures from the Inclusion Games at the Triangle show our team in action. Participants were Kaitlin Sargent, Jessie David, Amber Davies, Robyn Shenton, Leon Lavictoire and Thomas Lyons.

Mid October always sees the Memorial Match between Imberhorne and Sackville.

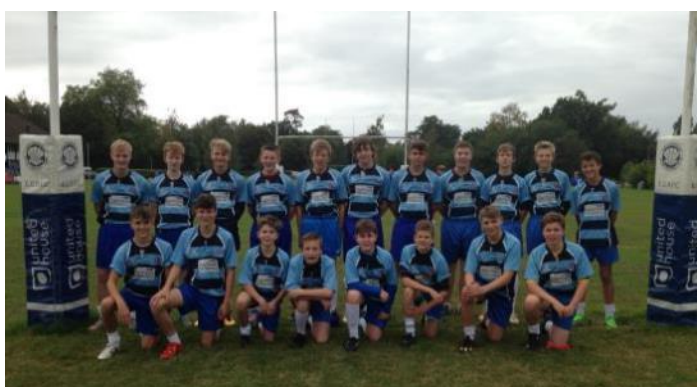

It's a while since Sackville has won, and sadly we will have to wait another year at least before they will. The team this time went down 2-4, despite goals from Adam Woods and Freddie Webb.

On the left of this team picture is Mr Dabell, father of ex-Sackville student Adam, in whose memory the game is played.

Adam died suddenly playing football, the game he loved. Money is raised at the match for research to ensure that others with conditions similar to Adam are more fortunate. Inset is the commemorative tie.

The year 7 and 8 cross country teams competed in the annual Schools Cross Country competition at East Court in October. The teams narrowly lost out to Notre Dame for first place. Fifteen students of the 33 entered were from Sackville! A great effort all round.

The Under 14 rugby team is enjoying a period of success at present, and are really starting to gel as a team. Their one loss, against The Weald, was against a team of giants!

Meanwhile, the Under 12 football teams have begun their Sackville careers with a draws against Warden Park and a narrow loss in the cup for the A team to Forest. Yesterday, they beat Imberhorne.

The Under 12 netball teams started their year in style. Pictured here they are looking happy after both the A and B teams beat Imberhorne.

Please remember to label all property students bring into school – we are getting a lot of un-named lost property which will end up in our second hand uniform shop!

Sussex Schools Relay Swimming Gala

On Wednesday 5th October the Sackville Swimming Team travelled to Horsham Pavilions to compete at the Sussex Secondary Schools Team Gala. With 25 schools in attendance from all over Sussex, there was a lot of competition for our pupils. We are very lucky to have some very talented swimmers in the school, allowing us to take both A and B teams to the event. Sackville pupils had the challenge of competing against a range of schools and showed fantastic enthusiasm, teamwork and support for each other throughout the day.

The results from the gala are as follows:

Team	Medley Relay Result	Time	Freestyle Relay Result	Time
Junior Girls A	8 th	2.33.09	5 th	2.11.52
Junior Girls B	18 th	3.02.48	17 th	2.29.66
Junior Boys A	3 rd	2.37.35	1 st	2.15.84
Junior Boys B	6 th	2.51.93	6 th	2.22.96
Intermediate Girls	12 th	2.50.06	12 th	2.21.42
Intermediate Boys A	4 th	2.18.06	4 th	2.04.19
Intermediate Boys B	9 th	2.51.66	10 th	2.37.02
Senior Girls	15 th	2.44.25	15 th	2.21.71

Thank you to Miss Offler and Mrs Rigg, alongside parents who assisted in taking pupils to Horsham and stayed to support the squad at the event. We now look forward to hearing whether any of the teams have made it into the National Finals!

The squad:

Sophie Taylor, Nicole Noakes, Abbey Hall, Ella Kessell, Ella Brown, Rachel Davies, Sienna Mogg, Olivia Johnson, Max Morgan, Sam Wiles, Dani Tuma, James Randall, Jamie Young, Jacob Knock, Alexander Parsons, Isaac Lancaster, Zoe Brown, Lucia Gomez-D, Georgia Wilkinson, Mimi Ward, Kirk Foulds, Ed De Barra, Joe Lancaster, Ted De Turriss, Ben Bailey, Luke Waddell, Jed Alderson, Lenny Kent, Antonia Major, Jordi Crowther, Charlotte Wall.

U14 A&B Netball vs Imberhorne

Miss Offler writes:-

Sackville's U14 A & B Netball teams faced Imberhorne for a friendly match on Tuesday 11th October. The A team's game had a very quick pace throughout, with some excellent passes being made by Megan Stratford and Katie Cooper on the attack, whilst a great partnership with Erin Harnett and Skye Ure developed to make sure they put pressure on Imberhorne's shooters. Meanwhile the B team started off a little shaky, but Heidi Crowther and Kiera Ellis made some excellent passes and showed some great movement around the court. Despite the shaky start, their game play improved throughout as well as their determination. In the last 2 quarters they didn't concede a goal and scored 3 goals themselves, which shows the improvement in their play. Both teams worked extremely hard throughout the games with the end result being Sackville A 19 – Imberhorne A 18 and Sackville B 3 – Imberhorne B 7.

A Team: Megan Stratford, Erin Harnett, Katie Cooper, Aliya Harvey, Clara Vincent, Skye Ure, Siobhan Thomas.

B Team: Heidi Crowther, Amber Davies, Keira Ellis, Harriet Allison, Gracie Jarvis, Abbie Hoskins, Emily Bone, Faye Adams, Anika Rahman.

U14 Girls Football Cup Match

Miss Offler writes:-

On Monday 17th October Sackville's U14 Girls' Football team travelled to Holy Trinity for their first cup game. The team settled into the first half extremely well with Poppy Nicholls scoring from a free kick in the first 5 minutes. This was followed only a couple of minutes later by Rhianna Major who had an excellent curling shot from just outside the box. Having fully settled into the first half, the goals kept coming with Poppy scoring another goal with a great assist from Rachel Canepa-Anson, Lucy Plumb

scoring 2, Millie Knowles scoring an excellent goal which was set up by Rhianna and Charlotte Radley scoring the best goal of the half, showing excellent control of the ball and calmness when being put under pressure. Whilst Hannah Plumb and our defence were challenged a couple of times, the team looked very strong with the first half finishing with Sackville 7 - Holy Trinity 0.

The second half saw Holy Trinity come back fighting with several attacking plays in the first 10 minutes. Hannah made some key saves whilst Ella Devine, Ellie-Mae Smith, Eloise Bassett and Kaycei Champion worked hard in defence to clear the ball out of danger. Whilst it took a while for Sackville to settle into this half, they came back strongly with the first goal of the half coming from Poppy. This was followed soon after with goals from Rhianna, Millie, Lucy and finishing with a 4th goal from Poppy, making the full time score of Sackville 12 – Holy Trinity 0. Holy Trinity's staff were very complimentary, commenting on their sportsmanship,

kindness and great ability. Congratulations to Rhianna for being awarded player of the match. Well done girls!

The team:

Hannah Plumb, Lucy Plumb, Poppy Nicholls (captain), Ellie-Mae Taylor, Ella Devine, Millie Knowles, Rhianna Major, Charlotte Radley, Kaycei Champion, Eloise Bassett, Rachel Canepa-Anson.

Autumn Courses at St. John's

The Parenting Teenagers Course is a series of 5 sessions designed to help any parent or carer of children 11-18 years old.

Keep your long term aim in mind
Meet your teenager's needs
Set clear boundaries
Develop emotional health
Help them make good choices

the
**parenting
teenagers**
course

This relaxed course is presented by DVD and is widely used in different places across the country.

Each evening includes:

- Drinks and a meal
- DVD teaching material
- Opportunities for discussion with others who have similar aged children

Open to all who may find it useful (you don't need to be a Christian or part of the church to benefit).

More information: www.the marriage courses.org/try-parenting/the-parenting-teenagers-course/

When: 5 Thursday evenings in November, beginning Thursday 3rd November at 7:15—9:30pm.

Where: St John's Church Felbridge (RH19 2QT, parking available behind the church).

How much: £10/person for the whole course.

Email office@stjohnsfelbridge.com or call 01342 314027 to book your place.

GATWICK FOOTGOLF

Try a #holenewballgame...!

'Healthy Half'- Term Offers

-  **Adult £10, Junior £5**
-  **Family* Ticket £25**
-  **1 Junior FREE with paying adult**
-  **Kids - 5 friends - 5th goes free!**

(*up to 5 persons)

**Have a blast with the family and a
happy & healthy half-term!**
