Dear Families

## Home to School Transport and Parental Permission

It has recently been brought to our attention that there is now a need for clarification around parental permission for students to disembark without a parent present at the drop off point to meet them.

There is no law regarding the minimum age a student can travel unsupervised on transport so this decision sits with parents. We need your help in finding out which students are permitted to disembark the coach without a parent or carer to receive them.

The companies that provide transport to our students therefore need us to collect permission from all those that use their services, and it is really important that we have this information back as promptly as possible. Please complete the [google form](#) to inform us of your choice.

Thank you for continuing to work together with us to provide safer travel on Home To School Transport.

Yours sincerely

Mr Millican

**Assistant Head and Designated Safeguarding Lead**
