Dear Families

Curriculum Enhancement Days Photography Walk

As part of the photography sessions during curriculum enhancement week, we will be taking students into East Grinstead Town Centre and East Court to take some architecture and nature themed photographs to use as part of the photography sessions.

If students have their own digital or manual cameras then this would be an ideal opportunity to use them, but if not then they should have their phone fully charged and with them in order to use it as a camera. If students have a USB wire to connect their phone to the computer this would also help as sometimes students can struggle to upload photographs to Google Drive from their phones in school.

Please can you fill in the Google Form [here](#) as soon as possible to allow permission for us to take your child out of school on the morning of Wednesday 17 July 2024. We anticipate that we will leave by 9.30am and return within two hours. This may be later or shorter if the weather turns.

Many thanks in advance and we are looking forward to a creative and productive three days.

Kind regards

Miss Stirling

Curriculum Team Leader for Art
