

03 October 2025

Dear Families

I am writing to inform you of the extra-curricular sessions that will be running this term here at Sackville, and update you on some changes to the way extra-curricular activities will be run this academic year.

Extra-curricular is a huge part of our school, and our school values shine through our already well established provision. These sessions form a small part of a wider picture; with our school show, music recitals, sport fixtures and curriculum enhancement days, your child has got the opportunity to delve into a world beyond classroom learning and form friendships with their peers across our school community.

Toward the end of each term, I will contact you through our Families Bulletin to inform you of the updates to our extra-curricular provision. You are now able to access our 'live' document that shows our sessions whenever you want.

This year, we are trialling a new system whereby each session your child attends they will be given an Extra-Curricular Attendance slip which when given to their form tutor will give them two achievement points. This will not only feed into their graduation, but also boost their contribution to the Community point's competition, which is a hotly contested challenge each year to see who wins the Community Cup.

The link for this half terms extra-curricular sessions can be found here:

[Extra-Curricular Opportunities Autumn Term](#)

We cannot wait to see the clubs up and running, and seeing the achievement points flying in. All clubs will be starting Monday 06 October 2025.

Yours sincerely

Mr Ashley Vallally-Godfrey
Associate Assistant Headteacher
