

26 September 2025

Dear Families,

STEM Club Announcement – Thursday after School STEM Club

We are excited to announce that the STEM Club will be running at Sackville School from November onwards. This year's Mid-Sussex Challenge after-school club is open to students in Year 9 providing an opportunity to explore creative ways of building prototypes, working on team projects, and participating in competitions. Students will delve into the exciting world of STEM (Science, Technology, Engineering, and Mathematics) in a fun and informal setting.

Throughout the term, students will engage in comprehensive projects, connecting their hands-on experiences to the theoretical lessons they are learning in class. Our aim is not only to deepen their understanding of STEM subjects but also to help them develop teamwork skills, learn about design and building processes, and bring ideas to life in real-world contexts—all while having fun.

By joining the STEM Club, students will gain:

- A heightened enthusiasm for STEM subjects
- Enriched learning experiences
- Improved practical, teamwork, and presentation skills
- A broader understanding of real-world STEM applications and potential career pathways

I am excited to begin this journey with the students and explore innovative projects together.

Club Details:

- **Day:** Thursday (Weekly)
- **Time:** 3:00pm – 4:00pm
- **Location as a Base:** T03 DT Room, Sackville School

If your child is interested in joining, please complete the google form [here](#) by Friday 3 October 2025 to say with your child's name and form group. Please note that space in the club is limited and will be allocated on a first-come, first-served basis. A place will only be secured once you are notified of this. As the club is very popular, I encourage you to register as soon as possible. All materials for the club will be provided.

Thank you in advance for your support and enthusiasm.

Yours sincerely

Mrs H Law

STEM Project Lead
