September 2014

Dear Parent/Carer

As your child begins the examination year for their GCSE science course, we are eager to provide every opportunity for them to succeed. Part of this success will rely on their ability to revise work covered in preparation for their exams, which are completed in the summer term of year 10 and contribute 75% of the final grade.

In response to feedback from parents and students, we are continuing to offer the opportunity to buy copies of revision guides and workbooks to support students. Students will receive a brand new book tailored to their course in which they can write additional notes or information. The workbooks provide hundreds of questions with answers to enable students to assess their own progress and practise questions.

We are offering books at the discounted rate negotiated by the school. Therefore, instead of the usual £4.99 each, students will receive both books **for a total of £6.50**.

If you would like to take advantage of this opportunity, please return the reply slip with payment. Alternatively, complete payment online via the school website. Please be reassured that students who do not buy their own copies will still have access to identical books in school during the revision period.

Yours sincerely

Mr S Bush
Curriculum Leader of Science

To: Mr S Bush

Name: _____ **Science Set:** _____

Please supply a workbook and revision guide. **A cheque made payable to Sackville School is enclosed (please do not send cash)/I have paid online.**
(please delete as appropriate)
