September 2014

Dear Parent/Carer

You may remember I wrote to you last year regarding the purchase of revision guides and workbooks for GCSE Science. In response to positive feedback from parents and students, we are again offering the opportunity to buy both books. In this way, students receive a brand new book in which they can write additional notes or information. The workbooks are used for homework and provide hundreds of questions with answers to enable students to assess their own progress and practise questions.

We are offering books at the discounted rate negotiated by the school. Therefore, instead of the usual £4.99 each, students will receive both books **for a total of £6.50**.

If you would like to take advantage of this opportunity, please return the reply slip with payment. Alternatively, you can now pay online via the school website. Please be reassured that students who do not wish to buy their own copies will still have access to identical books in school during the revision period.

Yours sincerely

Mr S Bush  
**Curriculum Leader of Science**
