

26 September 2023

Dear Families

Your child is now part way through their AQA science GCSE and approaching year 11 mock exams in November 2023. At this point in the course we would like to offer the opportunity of purchasing revision guides and exam practice workbooks. These books are helpful for students when studying independently to complete homework, preparing for in class assessments, and catching up any topic areas missed due to absence.

Depending on the route being taken by students in the summer we would recommend the following options:

### **Set Tr**

CGP AQA GCSE revision guide, exam practice workbook with answers, two separate books for each subject. This also comes with online access (£21.90 for all nine books).

### **Sets 1**

CGP AQA Combined Science revision guide (higher) which comes with online access and exam practice workbook (£13.00 for both). For any students in these classes that go on to sit the foundation tier paper in the summer, teachers will be able to advise individuals of any content not required.

### **Sets 3a and 3b**

CGP AQA Combined Science revision guide (Foundation) which comes with online access and exam question practice (£13.00 for both).

### **Students in 2a and 2b**

For most students in this group we would recommend the CGP AQA Combined Science revision guide (Foundation) which comes with online access and exam question practice (£13.00 for both). Students are welcome to talk to their teachers for more clarity. The higher revision guide will contain material for both the higher and foundation papers.

Please remember that if your child is eligible for the Pupil Premium government grant we will use that to pay for their revision guide. Please get in touch with Mrs Nibloe ([h nibloe@sackvilleschool.org.uk](mailto:h nibloe@sackvilleschool.org.uk)) if you **do not** wish us to do this.

As a school we do receive a substantial discount from the recommended price. Payment for the guides should be made through the My Child at School app as soon as possible and no later than Thursday 5 October 2023. We hold some stock in school and will order additional copies as required. These will be delivered to students during their science lessons.

I hope this information is helpful, but if you have any further queries please do not hesitate to contact your child's class teacher, or me at [jowen@sackvilleschool.org.uk](mailto:jowen@sackvilleschool.org.uk)

Yours sincerely

Dr J Owen

**Curriculum Leader of Science**
