An abstract painting by Vincent van Gogh titled 'Olive Trees with Yellow Sky and Sea'. The composition is a dense, vibrant collage of colors and textures. It features a variety of hues including deep reds, bright yellows, greens, blues, and purples, all blended and layered together. The brushstrokes are visible and expressive, creating a sense of movement and depth. The overall effect is a rich, textured surface that suggests a landscape or a scene, though the specific details are obscured by the abstract nature of the work.

Photography

Cost Free

PP cost Free

Year 7-9

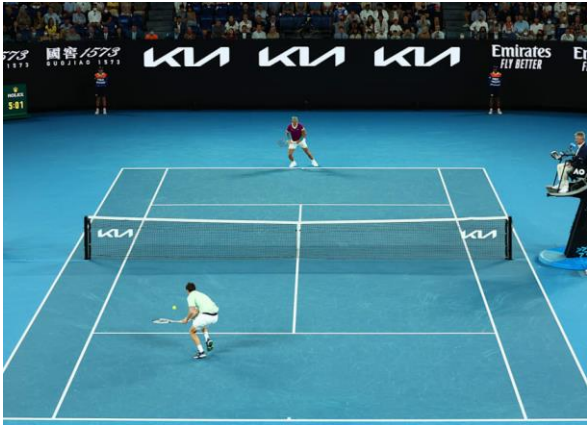

Daily

Purpose / Activities

This workshop is designed to give students the chance to learn and develop basic skills and techniques used by photographers. The course is designed to cover a range of basic photographic techniques so that students will learn to improve the composition and artistic feel of their photographs.

The 3 days are really aimed at students who want to improve the photographs taken with their phones and as such will not spend a lot of time on technical information. However, keen photographers who would prefer to use an actual camera, are also very welcome. We will be using editing software to explore how the development of images works in the digital age. We hope to culminate our efforts into an exhibition at the end of our time together.

Learn to ski

Cost £158

PP cost £79

Year 7-9
