

10 May 2023

Dear Families

## Year 8 – End of KS3 Science Assessment

On Wednesday 7 June 2023, year 8 students will be sitting an end of KS3 science assessment during their lesson.

To help students prepare, please find attached the topic list along with support materials. This has also been posted on Google Classroom.

This data will be used as part of our information for class setting in year 9, along with previous assessments and teacher input.

It is important to note here that in year 9, all students are taught the same content which does not limit them to which tier they will eventually sit in their GCSE exams. This allows students to move between groups depending on their progress over the course of the year and/or into year 10.

Any questions, please contact your child's teacher in the first instance, or please contact me on [kmorris@sackvilleschool.org.uk](mailto:kmorris@sackvilleschool.org.uk)

Yours sincerely

Mrs K Morris  
Leader of L3 Applied Science and EPQ coordinator
